

## High-quality tools for working with glass

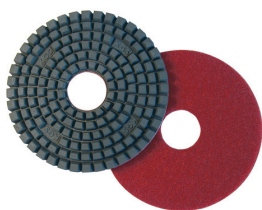

Levanto is the leading manufacturer of diamond tools in Finland; we offer diamond solutions based on our own production and imported products of highest quality. Diamond tools have been our main business since 1937. Today we even offer solutions based on diamond tools for glass.

### Glass as material

As material glass is at the same time fragile and hard; as a result of development work lots of variations have been created of glass.

When choosing the right tools for glass you need to consider about the special requirements for working with glass; i.e. when cutting glass it depends on the type of the glass what kind of blade you should use.

Our professional sales personnel will help you find the right product and overall solution.

### Diamond tools

Levanto offers high-quality diamond tools from leading international manufacturers.

Levanto has exclusivity for importing ADI and KGS diamond tools for glass to Finland. Our wide range includes i.a. the following diamond tools that are suitable for working with glass:

- ADI cutting blades and drills as well as
- KGS diamond belts and handpads.

Levanto also offers re-profiling service for diamond tools.
